SCAMPER + AI Prompt Sheet

Use these prompts with ChatGPT (or another AI assistant) to help you come up with creative ideas!

Substitute

- What can I replace to make this different or better?

- What could I substitute in my idea instead of _____?

- What are some unusual materials or tools I could use instead of the usual ones?

Combine

- What can I mix with this to make something new?

- What could I combine my idea with to make it more fun/useful/exciting?

- Are there two things I could mash together into one cool invention?

Adapt

- What can I change or borrow from something else?

- How could I adapt my idea to work in a different place or for a different person?

- What else already exists that I could use or change to improve this?

Modify

- What can I make bigger, smaller, faster, or more interesting?

- What could I modify in my idea to make it more unique or surprising?

- How could I exaggerate one part of this to make it stand out?

Put to Another Use

- What else could this be used for?

- What are some other ways people could use my idea?

- Could this be helpful in a different situation or setting?

Eliminate

- What can I remove or simplify?

- What could I remove to make my idea simpler or easier to use?

- Is there anything people don't really need in this idea?

Rearrange

- What can I flip, move around, or do in a new order?

- What would happen if I changed the order of how this works?

- Could I rearrange the parts to make it more fun or work differently?
